

MZ UCA Cloud Academy

AWS Cloud Foundations Lab Series

Lab 01 – Create Your AWS Account

Objective

Learn how to create and access an AWS account that will be used throughout your cloud learning journey.

Learning Outcomes

By the end of this lab, you will be able to:

- ◆ Create an AWS account
 - ◆ Access the AWS Management Console
 - ◆ Navigate the AWS Console homepage
 - ◆ Locate core AWS services
 - ◆ Understand the AWS account structure
-

Steps

Step 1: Visit AWS

Navigate to:

<https://aws.amazon.com>

Click:

Create an AWS Account

Step 2: Enter Account Information

Provide:

◆ Email Address

◆ AWS Account Name

◆ Strong Password

Confirm the password and continue.

Step 3: Verify Email Address

Check your email inbox.

Enter the verification code sent by AWS.

Step 4: Add Contact Information

Choose:

Personal Account (Recommended for students)

OR

Business Account (For company use)

Complete:

◆ Full Name

◆ Phone Number

◆ Address Information

Step 5: Add Payment Method

Provide a valid bank card.

AWS requires a payment method even when using the Free Tier.

Step 6: Phone Verification

Complete the verification process.

Enter the code sent by AWS.

Step 7: Choose Support Plan

Select:

Basic Support (Free)

Continue.

Step 8: Sign In

Navigate to:

<https://console.aws.amazon.com>

Sign in to your AWS Management Console.

Evidence Required

Submit screenshots showing:

- ✓ AWS Console Home Page
 - ✓ Account Name
 - ✓ Region Selector
 - ✓ Search Bar
 - ✓ Services Menu
-

Architecture Reflection

Why does AWS require a payment method even when using the Free Tier?
